FEDERATION DECAL ORDER SHEET

Name:		Phone #	
Address:		Email:	
City, State:		Zip Code:	

Tenneshington Decals produces custom water-slide decals for ADB's Starline and Shapeways ranges of miniatures. Our decals are designed to fit the 3788 scale, 3125 scale, 2500 scale (*Prestige*), and 7000 scale (*Elite*) miniatures sold through the ADB store on the Shapeways website, here: **Amarillo Design Bureau, Inc. - Shapeways**

While Tenneshington decals are designed for the Shapeways range of miniatures, the Starline ranges of pewter miniatures are functionally equivalent in size to the 3788 scale (*Starline 2400*) and the 3125 scale (*Starline 2500*) Shapeways miniatures – the decals designed for one, will fit the other (with some minor differences). If desired; however, we can provide the TD2500 legacy decals (designed for the Starline 2500 series). If you want these, indicate '*Legacy*' in the scale box.

We at ***Tenneshington Decals*** are constantly working to expand the number of ships for which decals are available. For an up-to-date list of which miniatures we current produce decals for, consult our website: ***www.tenneshington.com.***
Only ship types listed at the above website are currently available to order – any ships not listed there are not currently available. Designing decals for these units will incur "custom art" fees and additional production time. Inquire via email.

When completing the order form, you **MUST** indicate which scale / range of miniatures you desire the decals printed in. You may select any names you desire using the spaces below. Your order may consist of names from the official list, names you have made up, or a combination of the two. Tenneshington Decals reserves the right to reject any name we deem to be offensive. Also note that excessively long names will result in multiple lines / smaller font-sizes on your finished decal sheet . (Some requests may simply be impossible to accommodate. In this case, you will be notified and allowed to revise your order)
An official list of names / NCC numbers can be found at:
http://www.starfleetgames.com/documents/Starship_Name_Registry.pdf

Class ID: ***DN, CA, DD, etc.***	**NCC Number**	**Ship Name:** ***Enterprise, Hood, Kongo, Valiant, etc.***	**Scale:** **3788** **3125** **2500**
